Briefings in Functional Genomics & Proteomics

MAY 2008 VOLUME 7 NUMBER 3

CONTENTS

173 Editorial
   Patricia Kuwabara

SPECIAL ISSUE PAPERS

175 Large-scale gene expression pattern analysis, in situ, in Caenorhabditis elegans
   Sophie Bamps and Ian A. Hope

184 Studying gene function in Caenorhabditis elegans using RNA-mediated interference
   Eleanor M. Maine

195 Towards a mutation in every gene in Caenorhabditis elegans
   Donald G. Moerman and Robert J. Barstead

205 Proteomics in Caenorhabditis elegans
   Anjon Audhya and Arshad Desai

211 Genome evolution in Caenorhabditis
   James H. Thomas

217 Network-guided genetic screening: building, testing and using gene networks to predict gene function
   Ben Lehner and Insuk Lee

228 Functional genomic, computational and proteomic analysis of C. elegans microRNAs
   Nicolas J. Lehrbach and Eric A. Miska

SPECIAL ISSUE: CAENORHABDITIS ELEGANS:
   TEN YEARS AFTER THE GENOME
